**SACUR
NATIONAL RELIEF ORGANIZATION**

1. Introduction

The economic and social development of Guinea-Bissau should always have as an objective, among others, to meet needs felt by those members of the population most in need. That implies the existence of a harmonious and dynamic space capable of allowing the effective participation by all our society's living forces. It is in this context that SACUR emerges and consolidates itself within the development framework, having as a denominator, direct work and a philosophy of intervention which is often denied to the long suffering Guinean population.

Filled by a humanitarian spirit, the making up of SACUR is organized by a group of 4 individuals who will from now on be recognized as founders.

- William E. R. Robinson
- Luís António Tavares
- Albino Fernandes
- Venâncio Gregório da Silva

It is appropriate to stress that this philosophy will contribute towards an improvement in the populations' social life, in their conscience, dignity and value of their existence, the latter being an important instrument for the defense and affirmation of its identity.

In order to mitigate the numerous difficulties confronting it, SACUR envisages the possibility of providing populations, both at the main urban centers and the most remote areas, with appropriate technological means aiming at alleviating the physical burden some tasks entail.

Structured at the level of definition of a development strategy and conceived in the light of other countries' experiences, this initiative is considered as a master plan for future actions of a humanitarian and social nature, through the placing in equation of the problems currently affecting the country's populations.

2. SACUR's ORGANIZATION CHART:

- Distance in km between the tabanca and the nearest telecommunication center or site relative to SACUR

This census will serve to create at a later stage a data bank, which will be able to determine with accuracy the most viable and fastest means of transportation to be utilized in the emergency.

All local staff will be trained in the field of intervention techniques, information and communication, in order to enable them to contact SACUR any time.

All the staff will undergo medical clearing, aiming at guaranteeing an adequate service to the people in need.
